NEW DATES - June 8th to 11th, 2021

Dear all,

In the current context, and considering the global health crisis due to the Covid-19 pandemic that we are experiencing, **Bluesign**, in consultation with its main partners, has decided **to postpone Seanergy**, the international event dedicated to offshore wind and marine renewable energy, in its initial format, **from June 8 to 11, 2021, in Nantes and Saint-Nazaire, France.**

The perspectives for this edition of Seanergy will be fully in line with the 2028 ambitious objectives of the Multiannual Energy Plan published recently ; we will though be happy to meet in Pays de la Loire the french and international players and to help them comfort the dynamic in which this strategic sector for the energy transition has been over the last few months.

So save now the dates for this next edition, which promises to be a major *rendez-vous* for the entire sector at the heart of a region in full industrial development in June 2021!

Your registration (as exhibitor and visitor) will be valid for this 2021 edition under the same conditions. For any question relating to your participation, do not hesitate to get in touch with us by email at contact@bluesign.eu or by calling us directly at +331 85 09 68 53.

Please also note that the 7th national conference on Marine Energy, organized by the French renewable energy trade association (SER) is also postponed and will be held on **Tuesday, June 8, 2021** in Saint-Nazaire at Alvéole 12, before Seanergy.

Thanking you for your understanding and your loyalty,

Take care of yourself and your loved ones,

#Bluesign's team
